PART V

# Updates

---

The Four Horsemen of the Apocalypse

KillNet is a hacker group that Disdains all governmental Entities and is Anarchist in Orientation. They attack banks And War Industries. Sometimes, They hack governmental systems.

- KillNet claims to be preparing a cyberattack against the world's largest weapons manufacturer: Lockheed Martin Corporation [NYSE: LMT]. It is famous for creating the HIMARS multiple launch rocket systems in the 1990s.
- The hackers group protests that American arms manufacturing companies continue to pump “lethal” weapons into Ukraine.
- KillNet said that their attack would be a new type of cyberattack, not a DDoS (Dedicated Denial of Service) attack.

# Targeting War Industries

- Here are the largest “Defense Contractors” in the World:

1. Lockheed-Martin Corporation [NYSE:LMT]
2. Boeing Aircraft, Inc. [NYSE: BA]
3. Raytheon Corporation [NYSE: RTX]
4. BAE Systems, PLC (UK) [LON: BA]
5. Northrup Grumman Corporation [NYSE: NOC]
6. General Dynamics Corporation (NYSE: GD]

# Targeting War Industries

- Here are the largest “Defense Contractors” in the World:

7. Airbus Group (Netherlands) [EURONEXT: AIR]
8. Thales, S.A. (France) [PAR: PA]
9. Leonardo, SPA (Italy) [MILAN: LDO]
10. Almaz-Antey (Russia) [Government Owned]
11. United Technologies Corporation [NYSE: UTX]  
now owned by #3 Raytheon [NYSE: RTX]
12. L3Harris Technologies [NYSE: LHX]

# Targeting War Industries

- Here are the largest “Defense Contractors” in the World:

13. Huntington Ingalls Industries (US) [NYSE: HII]
14. United Aircraft (Russia) [Private]
15. United Shipbuilding Corporation (Russia)
16. Honeywell International (US) [NYSE: HON]
17. Rolls-Boyce, PLC (UK) now owned by Bayerische Motoren Werke AG [DAX: BMW]
18. Leidos (US) [NYSE: LDOS] formerly SAIC

# Targeting War Industries

- Here are the largest “Defense Contractors” in the World:

19. Naval Group (France) [Private]
20. Textron (USA) [NYSE: TXT]
21. Booz Allen Hamilton (US) [NYSE: BAH]
22. General Electric (US) [NYSE: GE]
23. Tactical Missiles Corp. (Russia) [Private]
24. **Mitsubishi Heavy Industries (Japan) [TYO: 7011]**
25. **Rheinmetall Group (Germany) [DAX: RHM]**

# Rheinmetall Group – The Panther KF51

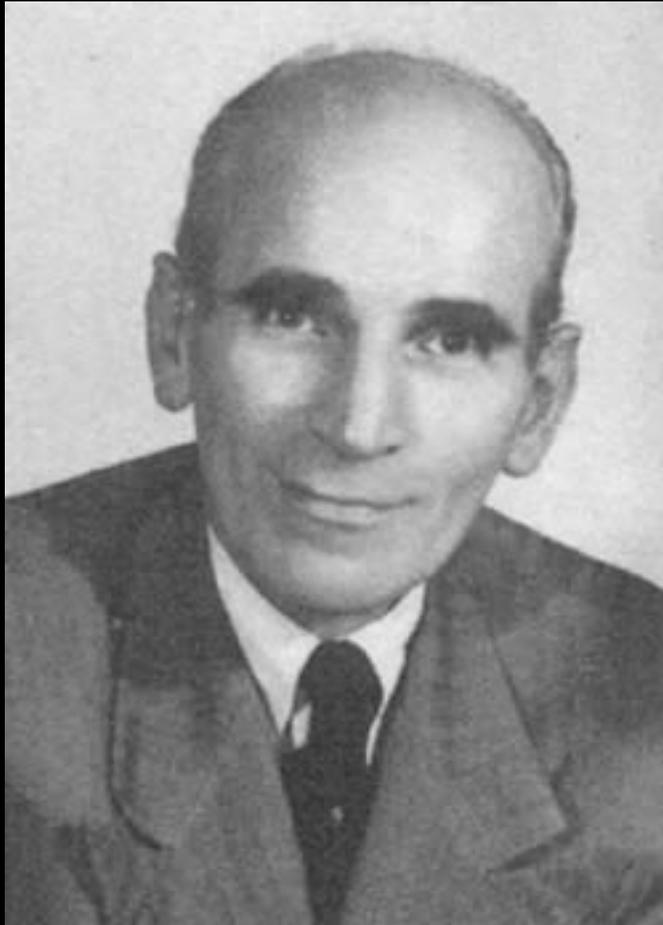

- Weighs 50 tons
- Range 500 km
- 130 mm main gun
- 12.7 mm coaxial machine gun
- Mine Protection
- Works with drones

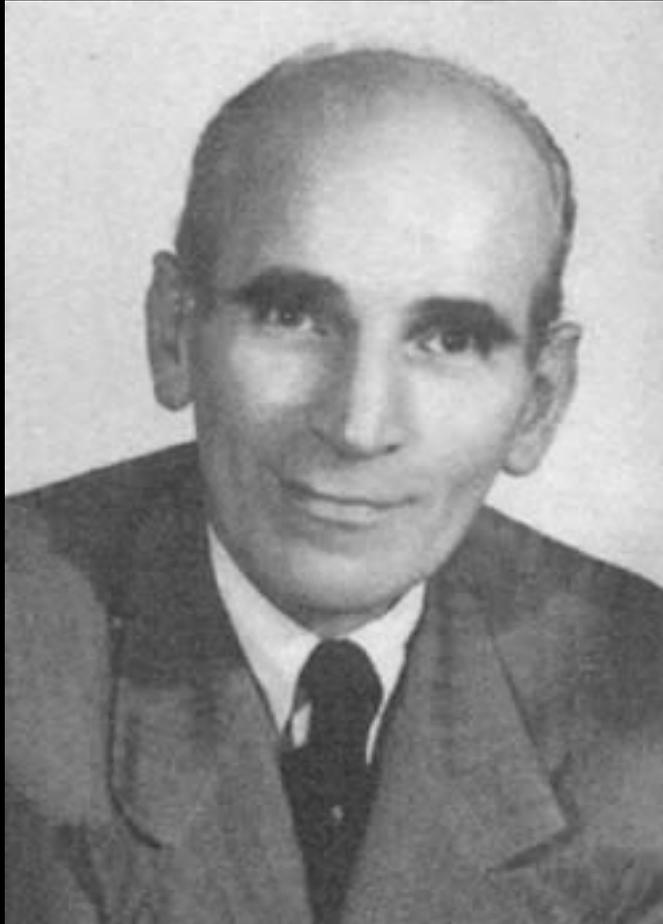

# Review: German War Industries After World War II

**After Nazi Germany lost their Sixth Army at Stalingrad (now Volgograd), they turned Adolf Hitler into a figurehead (much like Biden is now) and Martin Borman took over.**

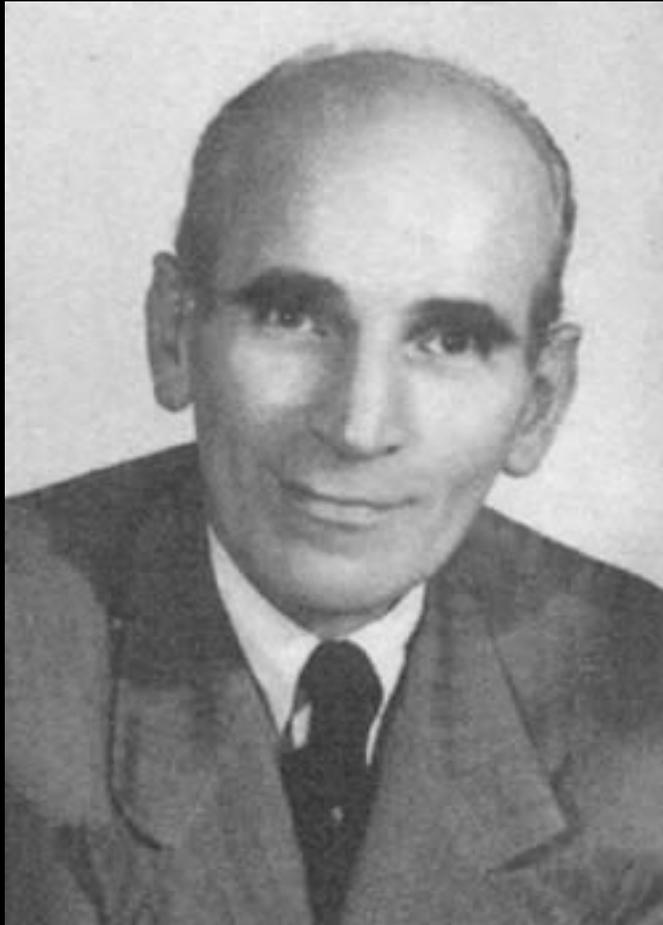

- **On August 10, 1944, with American Armies 100 miles to the West, a special meeting was convened at the Hotel Maison Rouge, then a five-star hotel.**
- **Chaired by Lt. General Dr. Otto Schied, he first announced that Germany was losing World War II and would collapse within a year.**

# Review: German War Industries After World War II

- **Dr. Schied outlined a program that would preserve German industry in the Post-War period.**
  - **He directed that 800 new corporations be formed and that existing corporations be liquidated down to their "shells." The exception would be I.G. Farben.**
  - **He outlined the concept of a conglomerate company. It would be a company that would operate in many market sectors and engage in multiple operations.**

# Review: German War Industries After World War II

- **Dr. Schied outlined a program that would preserve German industry in the Post-War period.**
  - **He directed that if a conglomerate company engaged in any kind of War Production, that operation would be hidden within the conglomerate company.**
  - **Since I.G. Farben designed and built the concentration camps, they would be targeted by the Allies, no matter what they did. They “allowed” the Allies to break them into their parts.**

# Review: German War Industries After World War II

- **I.G. Farben was broken up in 1945 at the end of World War II. The successor companies are:**
  - **AFGA (a tech company)**
  - **BASF (a chemical company)**
  - **Bayer, A.G. (Pharmaceuticals and chemicals, they now own Monsanto)**
  - **Hoechst (now Sanofi, another Pharmaceutical company) They received \$2.1 billion to create a vaccine which is still being researched.**
  - **All of these companies are conglomerates.**

# German Conglomerate Companies

- Who are the “Defense Contractors” Missing from this list:

- **Thyssenkrupp, A.G.**

Seen in Trinidad, Colorado  
On 15 July 2022

- They are a multinational conglomerate these days. Defense is a small part of their operations. Mostly, they produce submarines.

- **Škoda, A.S.**

- The company became a steel manufacturer when Czechoslovakia turned Communist after the War. The secrets from the Pilsen works were taken to Argentina.
- The remaining company's assets were sold off in 1999, most of them to Russia and the rest to German companies.

## 9A53-S Tornado

- Number:** 48 in a single brigade
- Armament:** 300mm GLONASS guided x12  
(accurate to 5-10m)
- Range:** 120km

## M142 HIMARS

- Number:** 16 (20 including M270s)
- Armament:** 227mm GPS guided x6  
(accurate to 5-10m)
- Range:** 80km

#FACT

**High-precision strike has destroyed 2 US rocket launchers of HIMARS multiple-launch rocket system on the territory of the Ukrainian Energy Machines plant in Kharkov. In addition, 1 launcher of American anti-ship Garpoon missile system has been destroyed near Veliky Dalnik, Odessa Region.**

Breaking News

# Nancy Pelosi WILL Visit Taiwan!

Taiwanese state media reports that US House Speaker Nancy Pelosi WILL visit Taiwan tomorrow evening as Taiwanese officials confirm receipt of "admission notice" for Pelosi's arrival.

# Resignations of World Leaders

- Who has resigned their leadership role in the last few weeks?

- Kaja Kallas - Estonia
- Mario Draghi, Italy
- Gotabaya Rajapaksa – Sri Lanka
- Naftali Bennett, Israel
- Boris Johnson, Great Britain
- Rumen Radev, Bulgaria

- Who will be next?

- Emmanuel Macron - France
- Olaf Scholz - Germany

# Replacement Prime Minister Candidates

- Here is a list of potential Prime Ministers:
  - Leading Candidates:
    - Rishi Sunak, former Chancellor of the Exchequer
    - Liz Truss, Foreign Secretary
  - Eliminated Candidates:
    - Penny Mordaunt, Trade Minister
    - Kemi Badenoch, Minister/ Local Government
    - Tom Tugendhat, Chair, Foreign Affairs Comm.
    - Jeremy Hunt, Health Minister
    - Suella Braverman, Attorney General
    - Nadham Zahwai, Chancellor of the Exchequer

**LIZ FOR LEADER**

**READY FOR RISHI!**

# Liz Truss

Leon Neal / Getty Images / Getty Images

Liz Truss is the UK Foreign Secretary. She has a B.A. from Merton College, Oxford “reading” Philosophy, Political Science, and Economics. She worked for Royal Dutch Shell as a Management Accountant and for Cable & Wireless, a telecom company.

She has lobbied for higher educational standards, complaining that school pupils are being “mis-sold” easy, low-value subjects to boost school results.

When the Russo-Ukraine War started, Truss vowed to “Defeat Russia” if she is elected as the next leader of Great Britain.

# Rishi Sunak, MP for Richmond (Yorks)

Rishi Sunak had a Kenyan Father and a Tanzanian mother. He was educated at Winchester College, but got his B.A. at Lincoln College, Oxford and an M.B.A. from Stanford University.

**READY FOR  
RISH!**

Goldman Sachs

He worked for Goldman Sachs [NYSE: GS] between 2001 and 2004, then worked for a hedge funds for several years before entered Parliament in 2014. He was appointed Chancellor of the Exchequer in 2020 and stayed there until this year when he was the first of the mass resignations that preceded the resignation of Boris Johnson.

Sunak is Hindu and takes all his oaths on the *Bhagavad Gita*, the holy book of Hinduism.

# Presidential Drama in the USA

- Joe Biden has suddenly acquired COVID-19 again!
  - He was allegedly “vaccinated” and has had two “boosters.”
  - Some analysts are suggesting that this is a way to keep him “out of circulation” for two weeks.
  - Why is he getting *Paxlovid*, a pill form “antiviral” (the brand name for the drug, which is made up of two generic medications—*nirmatrelvir* and *ritonavir*) instead of Remdesivir?

## Statement from Press Secretary Karine Jean-Pierre

This morning, President Biden tested positive for COVID-19. He is fully vaccinated and twice boosted and experiencing very mild symptoms. He has begun taking Paxlovid. Consistent with CDC guidelines, he will isolate at the White House and will continue to carry out all of his duties fully during that time. He has been in contact with members of the White House staff by phone this morning, and will participate in his planned meetings at the White House this morning via phone and Zoom from the residence.

Consistent with White House protocol for positive COVID cases, which goes above and beyond CDC guidance, he will continue to work in isolation until he tests negative. Once he tests negative, he will return to in-person work.

Out of an abundance of transparency, the White House will provide a daily update on the President’s status as he continues to carry out the full duties of the office while in isolation.

Per standard protocol for any positive case at the White House, the White House Medical Unit will inform all close contacts of the President during the day today, including any Members of Congress and any members of the press who interacted with the President during yesterday’s travel. The President’s last previous test for COVID was Tuesday, when he had a negative test result.

# Bible Music Research

- In anticipation of a trip to Heavener, Oklahoma later this summer, we did some more experimentation with our Bible Music Project.
  - Much of the research we previously did is on our website: <http://biblemusic.live>.
  - Much of that work from 2006-2012 centered around weather research and culminated with making it rain every day in June in 2012. Professor Mack was assisted by the late scientist: Olaf H. Hage III and Sound Engineer Chris Blodgett, both in the construction of the music and in the scientific elements.
  - On July 4, 2022, we embarked on a new project. In our first phase, we made music from Isaiah 9:8 to 13:33 in all 12 key signatures. We played the music out into the atmosphere for the first time that evening. Areas of drought suddenly got rain, but CERN did not operate as planned and there was a problem with the Georgia Guidestones.

# Bible Music Research

---

- In anticipation of a trip to Heavener, Oklahoma later this summer, we did some more experimentation with our Bible Music Project.
  - On July 22, 2022, I went to Colorado Springs, Colorado on personal business. While waiting in a waiting room at Memorial Hospital, I learned on local television that the city had experienced greater than average temperatures on 18 of 21 days on the month. They only had rain on three of those days.
  - Since I had “Rain Machine” on my phone, I started playing it in the waiting room of the Hospital. Within two hours of playing it, the clouds came off the mountain and it started raining heavily.

# Bible Music Research

- In anticipation of a trip to Heavener, Oklahoma later this summer, we did some more experimentation with our Bible Music Project.
  - In a follow-up to the Colorado Springs events, we noticed that the rain system missed Trinidad, Colorado. It is something that we have seen before. Even the late Stephen Hamer, M.S. (Meteorology) could account for the number of times that storm systems bypassed Trinidad, Colorado.
  - This time, we played Zechariah, chapters 13-14 into the air. Within two hours, thunderstorms came over the mountains and continued for much of the night.
  - Continuous thunderstorms are rare in Trinidad, Colorado, as the city is on the Northeast corner of the Great Southwestern Desert of the United States.

# WhiteStone Foundation Music Research

- In anticipation of a trip to [Heavener, Oklahoma](#) later this summer, we did some more experimentation with our Bible Music Project.
  - [Bible Music for Isaiah 9:8 – 13:22. MP3 File.](#)
  - [Bible Music for Zechariah 13-14. MP3 File.](#)
  - [Bible Music for Zechariah 13-14. FLAC File.](#)
  - Here is the key verse:
    - In that day there shall be a fountain opened to the house of David and to the inhabitants of Jerusalem for sin and for uncleanness. (Zechariah 13:1)
  - We are getting ready to post additional scriptures. If some of you have suggestions for scriptures to render into music, let us know.

# Inflation

PART III

# Post World War II Economy

- During a War Economy, industries are geared up to support their nation's war effort. We saw that in World War II and World War I.
    - After the War, the European economies were devastated due to all the bombing on both sides. Many industries needed to be rebuilt.
    - The United States developed The Marshall Plan to rebuild a devastated Western Europe, feeling it was in the best interest of the United States to build up its allies. The only damage the United States sustained was a couple of forest fires caused by Japanese balloons. Therefore, its industries could re-gear back to civilian operations to help with the building effort.
    - The Marshall Plan was designed to suppress the potential of a Nazi Party resurrection in the coming decades.
- 

# Post World War II Economy

- During a War Economy, industries are geared up to support their nation's war effort. We saw that in World War II and World War I.
    - The War still weakened Western Economies so that Belgium, Great Britain, France, The Netherlands, and even the United States lost most of their colonies around the world.
    - By the late 1960s European countries were turning into socialist governments causing their money supplies to exceed faster than their growth in the value of goods and services. This was causing inflation in Western currencies.
- 

# Post World War II Economy

- One Fact Needs to be Made Clear:
    - When Nazi Germany surrendered, it was only the German Army that surrendered, the German Navy, the Luftwaffe, the Nazi Party and the Schutzstaffel SS DID NOT Surrender.
      - Many Nazis including Hitler, went to South America to re-establish Nazi Germany and expand their influence in the world.
      - Some Nazi “scientists” were admitted to the United States, Great Britain, and Russia. They did not renounce their beliefs.
- 

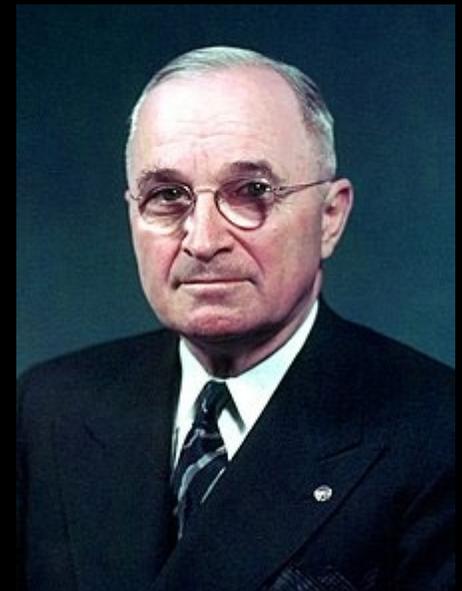

# Post World War II Economy

- Great Britain was devastated by German bombing and missile attacks. The Marshall Plan did not help them, as President Truman felt they already owed the United States a lot of money via lend-lease without them adding to it.
- Prime Minister Clement Atlee did not help Great Britain's bankrupt status. He started the:
  - National Health Service (Socialized Medicine)
  - British Welfare State

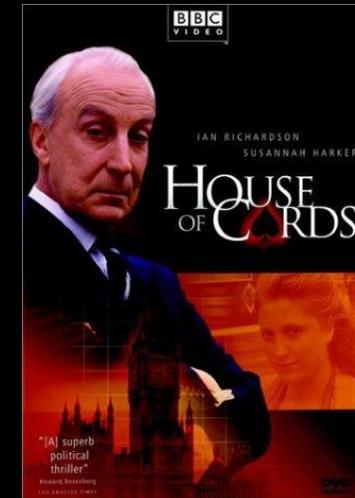

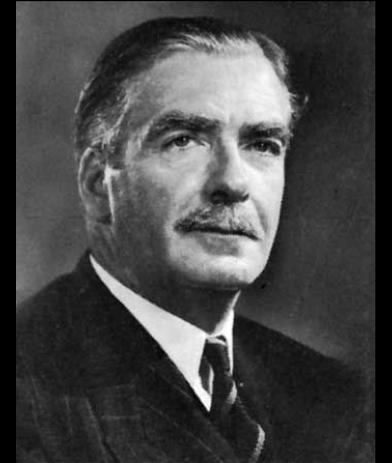

# Post World War II Economy

- Great Britain hoped to retain their colonies around the world in the hope it would finance their socialism at home.
  - Unfortunately, they lost much of their military power, making it a lot harder to maintain their colonies. In 1948, the sun set on the British Empire for the first time in centuries.
  - They asked the United States for help, but we had our own problems. The Truman Administration was not very popular and barely won the 1948 election. He did not run in 1952.

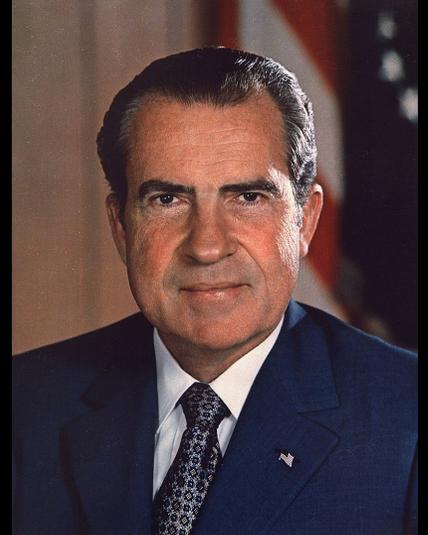

# Post World War II Economy

- When Winston Churchill returned to 10 Downing Street to be Prime Minister, he was besought with foreign affairs problems, which worsened when Anthony Eden, his foreign secretary got sick and could not perform his duties adequately for about a year.
- However, when Eden became Prime Minister, he was ineffective. He failed to understand that the United States was not interested in supporting traditional British imperialism. He and John Foster Dulles (U.S. Secretary of State in the Eisenhower Administration) did not get along.
- To understand British politics, a British mini-series called *House of Cards* does a good job of explaining the process.

# The 1960 Recession

- The Power of the Dulles Brothers started to recede in 1959 when the Federal Reserve started raising interest rates.
- This caused the Recession of 1960 which did not help the Republicans in the upcoming elections.
- We had our first fixed election when John Kennedy was declared the winner of the 1960 election. He “sacked” Allen Dulles in 1962 over the Bay of Pigs Fiasco.
  - JFK liked free money and low interest rates.
  - JFK also started to assert his authority over administrative agencies.
  - Not too many people in these agencies liked JFK’s idea of curbing their power.

# The JFK Presidency

- When JFK got into the White House, he obviously wanted and got a new cabinet. However, he had other ideas about who should be leading the agencies:
  - He wanted to remove Allen Dulles as CIA Director.
  - He wanted to remove J. Edgar Hoover as Director of the FBI.
- He took back control of the Money by printing having the Treasury Department print it in November of 1963 per [Executive Order #11110](#).

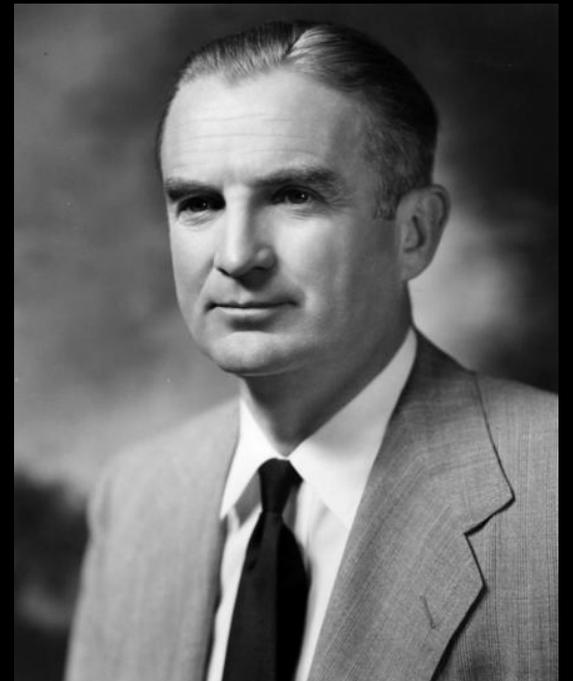

# The JFK Presidency

- He issued National Security Action Memorandum #263 planning to withdraw all troops from Vietnam by the end of 1965.
- He threatened to “wanted to splinter the C.I.A. in a thousand pieces and scatter it to the winds.”
  - Former President Harry Truman said the same thing in a *Washington Post* article, “something about the way the C.I.A. has been functioning that is casting a shadow over our historic positions, and I feel that we need to correct it.”
- His idea for the Civil Rights Act did not sit well with the Southern Democrats.

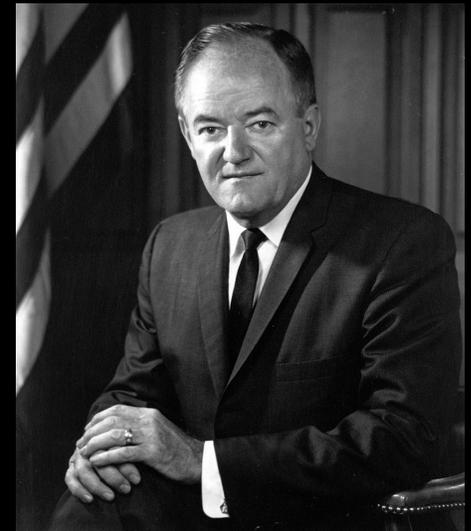

# The JFK Presidency

- His plans to reduce the Oil Depletion Allowance from 27.5% to 15% upset oil companies, especially the smaller ones doing wildcat wells in Texas. Clint Murchison and H.L. Hunt were most affected.
- JFK was planning to replace LBJ on the 1964 Presidential ticket with Stuart Symington of Missouri.
  - LBJ was under investigation for fraud in Cotton Allotment Payments, graft, and other corruption.
  - LBJ had a “hit list” that rivaled the Clintons.

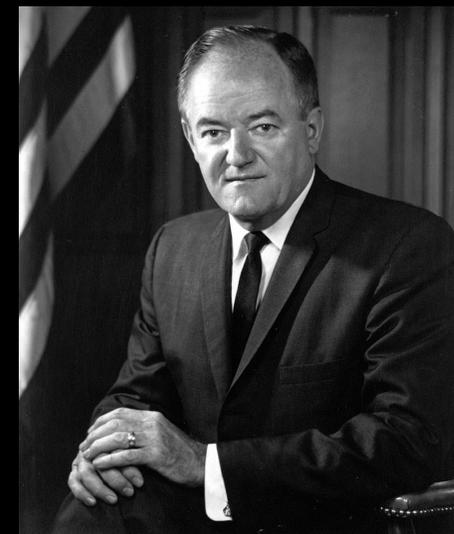

# The LBJ Presidency

- When LBJ ascended to the White House, he changed things quickly:
  - He returned the printing of money to the Federal Reserve.
  - Continued the War in Vietnam.
  - Guaranteed that J. Edgar Hoover could be the head of the FBI “for life.”
  - Loosened Restraints on the CIA.
  - Replaced Bobby Kennedy as Attorney General almost immediately.

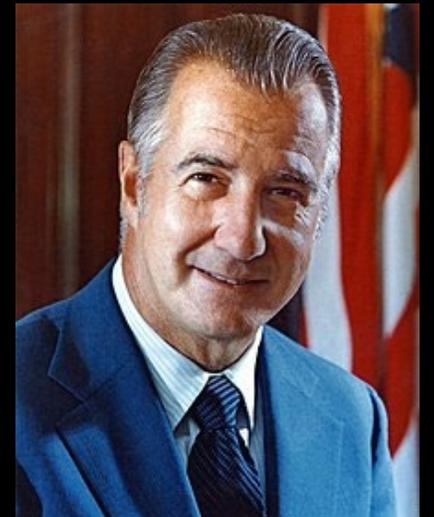

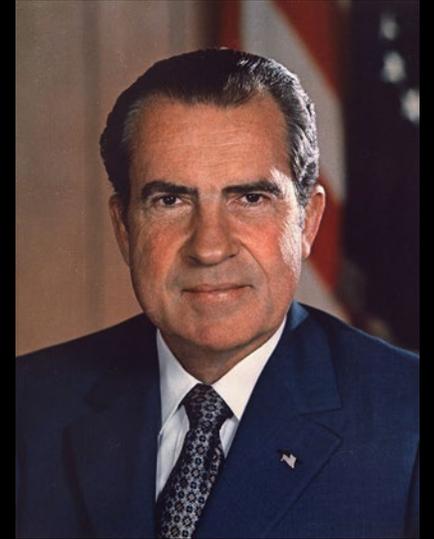

# The LBJ Presidency

- When LBJ ascended to the White House, he changed things quickly:
  - Stopped all investigations into his businesses.
  - Continued the “Free Money” policies of JFK but expanded them.
  - Inflation started to increase at the end of his term, but he did not deal with it.
  - In 1968, when he had a poor showing in the New Hampshire primaries (53% for LBJ to 46% for Sen. Eugene McCarthy of Minnesota), he dropped out shortly thereafter.

# The Nixon Presidency

- When Richard Nixon entered the White House, he had made a lot of promises and now endeavored to keep them.
  - Inflation was rising and he was obliged to tighten money causing recessions in 1969 and in 1973.
  - To control rising prices, he initiated a “Wage-Price Freeze” on August 15, 1971.
  - He also took the United States off the Gold Standard. Gold started at \$35 an ounce and now it is at \$1,800 an ounce.

# The Stagflation of the 1970s

- Here is a list of the Top Companies in 1970. Notice that General Motors is at the top of the list. Exxon, Chevron, and Amoco Oil dominate the Energy Business. General Motors, Ford Motor, and Chrysler Corporation control the auto business.

1. General Motors
2. Exxon (Rockefeller Oil)
3. Ford Motor
4. General Electric
5. IBM
6. Chrysler
7. Mobil
8. Texaco
9. ITT Industries (Nazi German Collaborator)
10. Gulf Oil
11. AT & T Technologies
12. U.S. Steel
13. Chevron (Rockefeller Oil)
14. LTV
15. E. I. du Pont de Nemours and Co.
16. Shell Oil
17. CBS
18. Amoco (Rockefeller Oil)
19. General Telephone and Telegraph
20. Goodyear Tire and Rubber

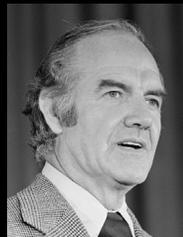

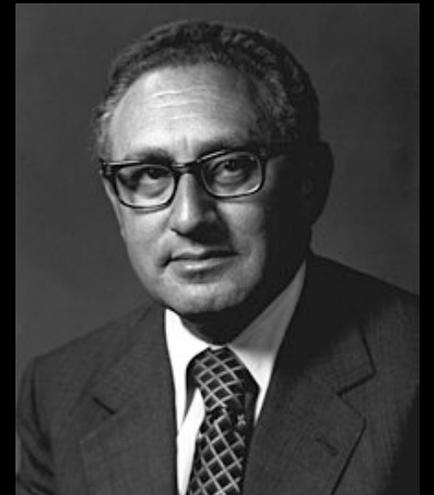

# The Nixon Presidency

- Richard Nixon got into trouble with the political establishment when he refused to give into internationalist demands.
- He engaged in a program of Vietnamization, helping the South Vietnamese to fight their own war without American Serviceman help.
  1. “Strengthening the armed force of the South Vietnamese in numbers, equipment, leadership and combat skills.”
  2. The extension of the pacification program (*i.e.*, military aid to civilians) in South Vietnam.

# The Nixon Presidency

- **Vietnamization** – an idea put forth by U.S. Secretary of State Heinz Alfred “Henry” Kissinger to take out American troops and let the South Vietnamese fight their own war.
  - This program was very similar to the program we are doing in Ukraine.
  - The flow of supplies to the South Vietnamese would be the same, U.S. soldiers would not be doing the fighting.
  - This worked well until Sens. George McGovern, Frank Church, and Howard Metzenbaum slipped an amendment in an appropriations bill stopping all financial and military support to South Vietnam.

# The Nixon Presidency

- Richard Nixon got into trouble with the political establishment when he refused to give into internationalist demands.
- He engaged in a program of Vietnamization, helping the South Vietnamese to fight their own war without American Serviceman help.
  1. “Strengthening the armed force of the South Vietnamese in numbers, equipment, leadership and combat skills.”
  2. The extension of the pacification program (*i.e.* military aid to civilians) in South Vietnam.

# The Nixon Presidency

- Richard Nixon got into trouble with the political establishment when he refused to give into internationalist demands.
  - Nixon kept interest rates high to control the money supply. The 1973 recession did not help his popularity.
  - He also refused to sent troops around the world to police conflicts. He preferred to send aid to the regions.
- Richard Nixon would resign on August 9, 1974, thanks to the phony Watergate hearings.

# The Ford Presidency

- Gerald Ford was rewarded the presidency for his role in the JFK Assassination Cover-up. He authored much of the Warren Commission Report along with Senator Arlen Specter (R-PA).
- The Gerald Ford program to beat inflation was a program called "Whip Inflation Now!"
- People wore WIN buttons and promised to spend less money.

# The Carter Presidency

- Jimmy Carter won the 1976 Election in a landslide over Gerald Ford.
  - People knew he was headed for the top when it was noticed that he was a member of the Trilateral Commission (TC).
  - Despite having Democrat majorities in both the House and Senate, President Carter had problems getting legislation passed. Because of that, the economy got worse.
  - He was the first president since Kennedy to use sanctions to deal with international problems when he embargoed wheat to the Soviet Union.

# The Carter Presidency

- Jimmy Carter won the 1976 Election in a landslide over Gerald Ford.
  - He decided to draw down the military arguing that since the Vietnam War was over, that we did not need as many personnel.
  - He was the first president to claim he was “born again.” However, in the end, he turned out to be a nominal Southern Baptist (many of whom do not believe the gifts of the Holy Spirit are for today).
  - His sister, Ruth Carter Stapleton turned out to be a high-level witch. Win Worley exposed her!

# The Carter Presidency

- The United States came to an economic precipice in 1980 when the Federal Reserve raised its prime interest rate to 21.5%.
  - At that point, the interest on the national debt almost exceeded Gross Domestic Product (GDP).
- The Carter Administration proved to be weak and ineffective, especially in the last two years of its operation.
  - Energy Crisis
  - Iran Hostage Crisis
  - Soviet Invasion of Afghanistan
  - Nicaraguan Revolution

# The Carter Presidency

- Jimmy Carter became a campaign phenom when he announced early in his presidential campaign that he was a “born again” Christian.
- It turned out that he was a Southern Baptist with a Masonic history. Later on, *Newsweek* magazine reported that he was “thrice born.” A clear mark of being a member of the Lodge.
- John Todd, a former witchcraft insider claimed that they were planning to make Jimmy Carter “the antichrist.”
  - He made the rounds of Independent Baptist Churches from 1976-1986. There are still YouTube videos of his tapes.

# Saving America

- With the advent of cassette tapes, the messages of Christians could transverse the USA and the world. Churches began to tape their pastors' messages and send them out.
- Pastors with unique messages found they could develop a following very quickly. People like Win Worley were in demand all over the world.
- British teacher Derek Prince also obtained a worldwide following.
- Both men empowered a lot of Christians to eventually see the truth of politics.

# Oil Company Dominance in the 1980s

- By 1980, we did not see much change in the structure of the world economy.

1. Exxon (Rockefeller Oil)
2. General Motors
3. Mobil
4. Ford Motor
5. Texaco
6. Chevron (Rockefeller Oil)
7. Gulf Oil
8. IBM
9. General Electric
10. Amoco Oil (Rockefeller Oil)
11. ITT Industries
12. Atlantic Richfield Oil
13. Shell Oil (Part of Royal Dutch Shell)
14. U.S. Steel
15. Conoco Oil
16. E. I. du Pont de Nemours and Co.
17. Chrysler Motors
18. Tenneco Automotive
19. AT & T Technologies
20. Sunoco Oil

# The Reagan Presidency

- When Ronald Reagan inherited the White House, he was faced with innumerable problems.
  - He attacked the economy by abandoning the Consumer-side theories of John Maynard Keynes and John Kenneth Gilbreath.
  - Instead, he started using the Supply-side economics of Dr. Arthur Laffer. He endorsed tax cuts and other programs to cause the business world to invest in their own companies.
  - Unfortunately, there was a mole in the Reagan Administration. George H.W. Bush, son of Nazi-collaborator, Prescott Bush, and team leader at Elm Street, Dallas, Texas on November 22, 1963 was rewarded for his evil deeds.

# The Tech Boom of 1990

- The Reagan-Bush revolution is starting to see tech companies rise, along with energy companies, chemicals, and consumer goods. IBM is now the fourth largest corporation in the world. The Rockefeller Oil giants take up 20% of this listing.

1. General Motors
2. Ford Motor
3. Exxon (Rockefeller Oil)
4. IBM
5. General Electric
6. Mobil Oil
7. Altria Group (Phillip Morris Tobacco)
8. Chrysler Corporation
9. E. I. du Pont de Nemours and Co.
10. Texaco
11. Chevron (Rockefeller Oil)
12. Amoco (Rockefeller Oil)
13. Royal Dutch Shell (Royal Families)
14. Proctor and Gamble
15. Boeing Aircraft
16. Occidental Petroleum
17. United Technologies
18. Eastman Kodak
19. Marathon Oil (Rockefeller Oil)
20. Dow Chemical

Others receiving votes: Xerox, Atlantic-Richfield Oil, PepsiCo, Nabisco Group, McDonnell-Douglas, Tenneco Automotive, Digital Equipment, CBS, Rockwell Automation, Conoco, Honeywell, 3M, Hewlett-Packard

# The Tech Boom of 2000

- Traditional industrial corporations have been replaced, first by energy companies and now, by technology. The ability to manage information is important now and will be important in determining who will win the next war and survive the peace.

1. General Motors
2. Wal-Mart Stores
3. ExxonMobil (Rockefeller Oil)
4. Ford Motor
5. General Electric
6. IBM
7. Citigroup (Banking)
8. AT & T
9. Altria Group (tobacco)
10. Boeing Aircraft
11. Bank of America
12. SBC Communications (AT & T Small Business)
13. Hewlett-Packard
14. Kroger Corporation (food)
15. State Farm Insurance
16. Sears Roebuck
17. American International Group (Insurance)
18. Enron
19. TIAA-CREF (Pension company)
20. Compaq Computer

Others receiving votes: Home Depot, Lucent Technologies, Proctor and Gamble, Albertsons, MCI WorldCom, Fannie Mae, Kmart Holdings, Texaco, Merrill Lynch, Morgan Stanley, Chase Manhattan, Target, Bell Atlantic

# The Tech Boom of 2010

- Traditional industrial corporations have been replaced, first by energy companies and now, by technology. The ability to manage information is important now and will be important in determining who will win the next war and survive the peace.

- |                                 |                                  |
|---------------------------------|----------------------------------|
| 1. Wal-Mart Stores              | 11. Berkshire-Hathaway           |
| 2. Exxon-Mobil                  | 12. Citigroup                    |
| 3. Chevron                      | 13. Verizon Communications       |

| 8. Ford Motor                   | 18. CVS Caremark                 |
| 9. J P Morgan Chase and Company | 19. Wells Fargo                  |
| 10. Hewlett-Packard             | 20. IBM                          |

Others receiving votes: UnitedHealth Group, Proctor and Gamble, Kroger, AmerisourceBergen, Costco Wholesale, Valero Energy, ArcherDaniels Midland, Boeing, Home Depot, Target, WellPoint, Walgreen, Johnson and Johnson

# The Tech Boom of 2020

- Traditional industrial corporations have been replaced, first by energy companies and now, by technology. The ability to manage information is important now and will be important in determining who will win the next war and survive the peace.
